

PDF Management Services Pty Ltd

PDF Management Services Pty Ltd is a small Hobart based Company formed in 1999. Our aim is to help businesses to thrive and prosper – and we mean business in the broadest possible sense, from all levels of Government to the private and community sectors.

PDF has remained small, so when you buy us, you are buying the skills and experience of the Directors – and specialist staff.

Our people believe in things like passion, commitment and the drive to make a difference – hence the origins of our name – PDF – ***‘pigs do fly’***. We have an optimistic and ‘can do’ approach, and believe that where there is a will – the impossible can become probable.

Our track record illustrates skills and experience in areas such as business planning and development; consultation, facilitation and evaluation; resource development and training; tender and submission writing; and community and economic development.

“I reckon passion is the key. I love working with people who enjoy what they do, and are committed to making a real difference. It is a great privilege, to be invited into a business and be part of the evolution toward greater quality, and progress toward achieving the firm’s goals”

Michael Gordon (Director)

“What I like most is seeing ideas come to life. I like this so much I’m happy to put in the hard work to tease out and test the possibilities. Seeing the energy in an organisation and seeing it take off – that makes it worthwhile.”

Ged Dibley (Director)
